CARRIAGES! CARRIAGES! CARRIAGES!!

THE SUBSCRIBER hereby gives notice that he has been appointed agent for the sale of Sargent, Harlow & Co's Top Carriages of all descriptions, which he is prepared to deliver at his

Carriage Shop on Franklin Street,

Thereby affording to citizens of Bangor and vicinity in want of such Carriages, an opportunity to purchase direct from the best manufactories in New England, at the manufacturer's prices.

Also, that he still continues the

CARRIAGE MAKING BUSINESS,

in its various branches, including

Repairing, Painting and Trimming,

in the best manner, and at the very lowest prices. From his experience, his facilities for doing business, and the character of his workmen, he flatters himself that in the production of durable and substantial Carriages, his establishment will be second to none in the State.

MR. GEO. S. WALKER,

We I known to be one of the best Carriage Painters in New England, will have the charge of his painting department; offering a very rare inducement to those who would have their work done in an elegant and durable manner, to leave their work at this establishment. *All work warranted to give entire satisfaction*, and all bills for work payable when the work is done.

CITY OF BANGOR.

In City Council, August 11, 1859.

ORDERED—That the Street Engineers be, and they are hereby, directed to widen Harlow Street by commencing at a point in the Easterly line thereof forty-eight feet northerly of the iron monument standing in the angle of said street nearly opposite the foundry of Messrs. Hinckley & Eggery, thence running in a straight line to strike the iron monument standing near the southerly end of the Drummond Bridge, (so called,) and on the southerly side thereof at the terminus of said Harlow street, as run in 1856; and assess such damages, and apportion such settlements, as may be sustained in consequence of such widening, and to report a suitable grade for the same.

GEO. W. SNOW, *City Clerk.*

A true copy of record—Attest:

GEO. W. SNOW, *City Clerk.*

In pursuance of the above order, the Street Engineers give notice that they will, on WEDNESDAY, the twenty-fourth day of August inst., at 9 o'clock A. M., proceed and widen said Harlow street, agreeably to the above order. All persons interested in said premises are hereby notified to be present, where they will be heard, that said Engineers may estimate and decide the damage any individual may sustain by the widening of said street.

KEROSENE BURNER.

THIS is acknowledged to be the *Best* Burner yet invented. It is so constructed that the wick is always in the exact position required for the most perfect combustion of the Oil, thus ensuring a saving of one-third in the cost of the light.

It can also be used as a Night Lamp, without the least inconvenience from smoke or smell, as in the common Burner. For sale by

Whig and Courier.

The Independent Democrat, of Concord, N. H. has a long and earnest leader upon the proposition of the Richmond Whig, and some other Southern papers, to dissolve the Republican party, and form a union, whose basis shall be opposition to the democracy, and in which the slavery question shall be ignored. The article closes as follows:—

"It (the Whig) concludes by asking its 'Opposition contemporaries, North and South, to reflect upon the matter, and give their views at their earliest convenience.'

"Supposing we are one of the 'contemporaries' thus appealed to, we very frankly inform the Whig, and whomsoever else it concerns, that we *have* 'reflected upon the matter,' and that its scheme neither commends itself to our judgment nor our conscience. The slavery question and the Republican Party are both fixed facts, and likely to be so for years to come. To pronounce the one 'forever settled,' and the other 'already practically dissolved,' is to utter what the whole country knows to be untrue. The slavery question was never more *unsettled*. The Republican Party was never more compact, nor felt more conscious of its strength. The necessity for its continuance was never more imperative than now. It is the *only* possible organization which can 'sweep the country, and achieve for the Constitution and the Union a glorious and enduring triumph.' That it is resolved to do. That it will do. And it will do it, too, 'upon the platform of uncompromising hostility to the extension of human slavery.' If the Richmond Whig, and the 'Opposition South,' can unite with us upon this platform, they can have any position in the Republican party they choose to deserve. If they cannot do this, our way of duty and of triumph is none the less certain."

THE DIFFERENCE BETWEEN FRENCH AND AMERICAN BRANDY.—The Chester County (Pa.) Times is responsible for the following:

A gentleman of our acquaintance wished to purchase some brandy to be used in sickness, and called upon an old German liquor dealer in the city of Philadelphia, when the following dialogue ensued:

"Have you any imported brandy—genuine stuff?"

"Very good prandy. Come and trink some claret-punch; dat ish goot, too, ven the vedder ish hot."

"No, I thank you, I want a little brandy for a sick man."

"Come and try the punch. One friend from Germany here here. I see him not pefore for mony years. We peen trinking de punch."

"Come and tell me about the brandy. I want a little of the best in the market."

The old-gentleman was a little mellow—just enough to make him talkative; and the visit of his friend had warmed his sympathies so as to make him communicative.

"Now my friend, you vants goot prandy, and I sells you goot prandy. Dare ish some prandy I makes myself, and *dat* ish goot. Dare ish some I bought in New York, and dat ish *sheap* prandy. Dare is some I imported from Vrance, and *dat* ish very goot *too*."

"Did you say you made that lot yourself?"

"Dat I makes myself, and I *warrants* dat. It is made of de verra best whisky."

"Whisky! I don't want any of your infernal concoctions made of whisky, and called brandy."

"(Old gentleman solemnly.) "It is all made of whisky, my friend, and dat ish the reason why de Vrench prandy ish not so goot as goot American prandy. No prandy ish now distilled from wine any more; it is not possible to make it cheap enough for this market from wine, and de American people do not like de real prandy, because dey are not used to it."

"Did you say that French brandy is not so good as our own manufacture? We import some brandy from France, do we not?"

"O, we import plenty of prandy to please de rich people, but it ish not goot. In Vrance, de prandy ish made of potato whisky, and dat ish not so goot as de corn whisky what we makes into prandy here!"

CLEAR CASE OF CONSCIENCE.—A rare case has just been experienced by Superintendent Nottingham of the Cleveland and Erie Railroad. The story is as follows:

A few days since, he received a letter, signed by David C. G. Field, inclosing a one dollar bill, and in which the writer states that a year ago last May, he took passage at Geneva, Ohio, for Erie, Pensylvania, and, being very short of funds, seated himself in a second class car. As there were no other passengers in that car, the conductor did not happen to discover the single traveler, and he rode to Erie free. As he was nearly "strapped," having but little over one dollar with which to travel five or six hundred miles, Mr. Field regarded this oversight of the conductor as a streak of good luck, and went on his way rejoicing. Recently, however, his finances have somewhat improved, and he inclosed to the Superintendent a current dollar to pay for his ride! We do not think the case has a parallel in railroad experience.

A DEATH GRIP.—A sea captain related at a prayer meeting in Boston a short time ago, a thrilling incident in his own experience. "A few years ago," said he, "I was sailing by the island of Cuba, when the cry ran through the ship, 'man overboard.' It was impossible to put up the helm of the ship, but I instantly seized a rope, and threw it over the ship's stern, crying out to the man to seize it as for his life. The sailor caught the rope just as the ship was passing. I immediately took another rope, and making a slip-noose of it, attached it to the other, and slid it down to the struggling sailor, and directed him to pass it over his shoulder, and under his arms, and he would be drawn on board. He was rescued; but he had grasped that rope with such firmness—with such a death grip, that it took hours before his hold relaxed, and his hand could be separated from it. With such eagerness, indeed, had he clutched the object that was to save him, that the strands of the rope became imbedded in the flesh of his hands."

RUMORS OF THE SOUTH.—The Baltimore Sun relates the following story, which has a spice of Southern life in it.

It appears that about three years ago, a gentleman, doing business on Light street wharf, held a mortgage on a negro boy then living with a lady on Pratt street. The lady, learning that she was likely to lose the boy, adopted a stratagem which completely knocks all other methods in the shade. By some means she conveyed intelligence to the owner of the boy, that he had died of the measles, and had departed for that home whence there is no returning. The owner of the boy swallowed the story, and made himself contented.

Nothing more was thought of the affair until a few days ago, when the mortgage holder was informed that the boy was not dead, but flourished in the land of the living. Two police officers

BANGOR DAILY WHIG AND COURIER.

were detailed to visit the dwelling of the lady on Pratt street, and arrest the boy They were told to search, and if successful, to take away the disputed property The search was about being given up, when one of the officers strongly suspected that a certain negro girl in the house was no girl, but the wished-for boy. To make matters sure the doubtful property was taken to the station-house when it was discovered that the negro was the boy sought after

It appears that after the boy's death had been given out, he was dressed in hoops and other 'fixings,' and in a short time could play the part of coquette to perfection And now, after wearing petticoats over three years, he is compelled to go back to first principles, and don male attire As this list of news requires all the moral element necessary, we give the following, which occurred after the boy had been taken from his mistress Finding that she could not retain the boy she sallied out to meet the gentleman who held the mortgage She found him in front of the station-house, conversing with several gentlemen Approaching him, she remarked 'I suppose you think you are smart,' and at the same time planting a tremendous sockdologer in his face Apparently well pleased with her exploit, she walked away as unconcerned as if nothing had transpired

FOR GOVERNOR,

LOT M. MORRILL.

THE REPUBLICANS of the Representative district composed of Orono and Glenburn are requested to meet in Convention at Jewett's hotel in Orono, on Saturday of September next at two o'clock P M for the purpose of nominating a candidate to be supported at the ensuing election as a Representative to the next Legislature. Per order of District Committee. Orono Aug. 20th.

Another Democratic Swindle

On the 29th of June Deputy Quartermaster ... advertised in an obscure Mormon paper a sale of 2000 mules belonging to the United States In regard to this sale the *Louisville Journal* makes some rich developments, which we invite the attention of those uneducated people who may still imagine that there is such a thing as honesty or a desire to ... the people's money among the Democratic ... at Washington

The mules were to be sold on the 11th day last month, the notice not having been given till the 22d of June just *twenty days* before sale The order put forth by the Secretary of War and acted on by the Quartermaster General, was that the sale take place on twenty days notice to be given *immediately* on the receipt of the order, thus, for *want of time* ... preventing purchasers from California and places from being on the ground to interfere ... Messrs Majors, Russell, & Co, whose ... for the purchase was actually forwarded ... of mules to Camp Floyd by Government transportation furnished him in accordance ... an *order of the Secretary of War* ... *all United States officers along the route*— enabled the agent to reach Camp Floyd before the publication of the *order for the sale*, so to make all his *arrangements* for a *monopoly* ... purchase at a merely nominal price ... no one on the spot, except himself, had ... to purchase to any extent A more ... transaction is scarcely recorded even in the annals of this most infamous administration.

Of course we have not had time to hear what two thousand mules and the hundreds of wagons harness, &c brought at the auction on the 11th ult, but we have spoken of it as a merely nominal one and it certainly have been no more The circumstances exclude the possibility of a price worth mentioning. The mules cost the Government $175 ... and there was no reason under heaven ... the indecently-hurried sale The grazing in Great Salt Lake regions is so very fine, that ... it was necessary or expedient to dispose ... the mules at all they could have been kept months longer without any expense whatever to the Government, and then there would have been time to the purchasers of mules to come in from other quarters, and there would have been just competition and the stock would undoubtedly have brought at least six times as much money as it did bring on the 14th ult The whole reason of the indecent haste in the ... and of the peculiar facilities furnished by the government to the agent of an influential Democratic house was obviously and undeniably to SWINDLE THE PUBLIC TREASURY FOR POLITICAL OR PERSONAL PURPOSES OR BOTH The originators of the transaction and participators in it, Administration and all, ... play the part of swindlers and that too on a very large scale.

The same agent, who travelled to Utah ... government transportation for the purchase of Government's mules, produced on his arrival a contract granted to his house by the Secretary of War for furnishing flour to the ... in Utah *at the enormous and almost unreasonable price of £28 per hundred lbs*, and that in defiance of *official knowledge*, on the part of the Secretary of War, that the greatest abundance of flour could be purchased at $6 to $7 per hundred And at the Salt Lake from Utah the contractors, through their agent, were actually delivering their flour at a cost to themselves of not over $7 per hundred, and the fact was notorious, that, as soon as the crops should be made, they would in all probability be able to buy it *for two or three dollars* At the very time when the Secretary of War awarded this monstrous and infamous contract to furnish flour at about $28 per hundred, he had *under consideration*, or at least under *pretended consideration*, a *responsible bid* for the whole amount to be delivered at $9 or $10 He preferred giving $28

A steam plow (Hawks') was tried near Philadelphia a few days since, standing very severe tests It can turn around in a circle of twenty-five feet diameter, pass over ploughed ground and through gullies eighteen inches deep without detriment, and draw eight plows turning furrows six inches deep and fourteen inches wide, at the rate of four miles an hour Should practice demonstrate that the plow can be relied upon for such an amount of work, it will effect a great revolution in farming

AN APPROPRIATE COMBINATION—The notorious 'Sheriff Jones,' formerly of Kansas, and Mr Mowry, have purchased the Arizonian, at Tucson, and Mr P Herbert, the California ex-Congressman, who shot the hotel waiter at Washington is to become the editor of the paper, which is to be Democratic in politics

JAPAN LEGERDEMAIN—He threw up the sleeves of his dress, and showed a piece of tissue paper, which he held in his hand It was about six inches square, and by dexterous and delicate manipulation he formed it into a very good imitation of a butterfly, the wings being extended and at the most each was an inch across Holding the butterfly out in the palm of his hand, to show what it was he placed two candles which were beside him in such a position as to allow him to wave a fan rapidly without affecting the flame, and then, by a gentle motion of his fan over the paper insect, he proceeded to set it in motion A counter-draught of air from some quarter interfered with his efforts, and made the butterfly truant to his will, and the screen had to be moved a little to remedy this

He then threw the paper butterfly up in the air and gradually it seemed to acquire life from the action of his fan—now wheeling and dipping towards it, now tripping along its edge then hovering over it, now tripping over it as we may see a butterfly do over a flower, on a fine summer's day, then in wantonness wheeling away and again returning to alight, the wings quivering with nervous restlessness One could have declared it was a live creature Now it flew off to the light and then the conjuror recalled it, and presently supplied a mate in the shape of another butterfly, and together they arose and played about the old man's fan varying their attentions between flirting with one another and fluttering along the edge of the fan We repeatedly saw one on each side of the fan as he held it vertically, and gave the fan a short quick motion, then one butterfly would pass over the other, both would wheel away, as if in play and again return

A plant with some flowers stood in a pot near at hand by gentle movements of the fan the little creatures were led up to it, and then their delight! how they played about the leaves, sipped the flowers, kissed each other, and whisked off again with the airs and graces of real butterflies! The audience were in ecstacies, and young and old clapped their hands with delight The exhibition ended when the old man advanced to the front of the stage within arm's length of us all, accompanied by his magic butterflies, that even in the open air continued to play around the magician and his fan As a feat it was by far the most beautiful trick we have ever heard of, and one that must require an immense amount of practice —*Blackwood's Magazine*

A SAFE UNLOCKED FROM THE INSIDE—The impossibility of rendering a strong box altogether safe against theft by means of skeleton keys, has led a locksmith in Frankfort-on-the-Maine to hit upon the ingenious idea of constructing a strong box without any keyhole at all and which even the owner himself cannot open Why, what is the use of such a box you will ask? But observe inside is a clockwork, the hand of which the owner places at the hour and minute when he again wants to have access to the box The clock begins to move as soon as the lid is shut and opens the lock from the inside at the moment which the hand indicates. *Time* is independent upon the owner, is the key to the lock, a key which can neither be stolen from him nor imitated

The interior of Africa is now attracting the attention of explorers several companies having been organized to penetrate it for the sake of making discoveries and also of opening communications with the powerful nations who are said to inhabit it An English steamer is exploring the country along the Niger, and a Swedish traveller, a Portuguese Governor, a German traveller, a French Missionary, and the celebrated Dr Livingstone are also engaged in the work in different parts of the continent and other expeditions have gone to the Upper Nile and the interior of Abyssinia

A Minneapolis paper reports that one hundred and fifty feet of the rock making St Anthony's Falls has broken off in a single week—Twelve-hundred feet further up the river the rock—a sheet of limestone—disappears, and where the Fall works up there it will gradually disappear. Niagara Falls has worked gradually up the river in the same way, but the rock being of a harder material the process is much slower

A down east lumberman passed through Springfield on Wednesday on foot for Watertown, N Y, having walked from the lumber regions of Maine above Bangor, to Springfield in two and a half weeks, a distance of 600 miles —*Boston Journal*

A NEW COUNTERFEIT Counterfeit 'Fives,' on the Taunton Bank, Mass, made their appearance in Boston on Wednesday, Vignette —Man and women under a tree, horses and milldam, man, watering two horses On the right end Goddess of Liberty with figure 5; on the left, figure 5 and a portrait of Franklin The paper is rather light

THE OREGON ELECTION The last returns from Oregon purport to elect the Democrat candidate for Congress by a majority of forty-five This result is disputed by Republicans here and in California, who deny the correctness of the returns, which, even if admitted, they say, will be overruled by the proof of fraud in some of the counties. It is thus alleged that Mr Logan, the Republican candidate, will contest the election. But admitting the truth of the last reported result—that Oregon has chosen a Democratic Congressman by forty-five majority—whereas she gave last year 1660 majority—the election surely affords great cause for rejoicing among all who are interested in the speedy overthrow of modern Democracy It demonstrates that the extreme West is moving in unison with the East in the grand work of reform.—*Boston Journal*

FOUR DAYS
LATER FROM EUROPE

ARRIVAL OF THE

STEAMSHIP HUNGARIAN,
AT QUEBEC!

QUEBEC, August 20, 1859

The Hungarian left Liverpool on the 10th — The steamer Bremen left Southampton for New York on the 9th

The Conference,

All the members of the Conference resolved to a — Austria Count Colloredo and Baron Meysenburg France, Baron Bourgency and Marquis Bonneville Sardinia, Chevalier Desambrois and Chevalier Jocegan Sardinian Minister at Berne

The first formal sitting of the Conference took place on the 8th, The second sitting was held on the 9th Nothing transpired as to proceedings

Britain

On the 8th, the affairs of Italy were debated in the House of Lords The Marquis of Normanby denounced the conduct of the Government as one sided and evincing no desire to maintain neutrality

Lord Wodehouse in reply, reiterated the statement that England's terms of peace to Austria at the request of France, but without giving her own expression an opinion on the subject He said it would be most inconvenient to produce documents in the present state of negotiations

In the House of Commons, Lord Elgin moved an address to the Queen, declaring it would be inconsistent with the honor and dignity of England with the high character of her neutrality, to interpose in any conference for settling details of the preliminaries of which have been arranged between the Emperors of France and Austria Lord Elgin praised the administration of the late government, and canvassed the Italian question at length

Gladstone said the Government had no intention of stepping in to settling details of peace on the basis of the Villafranca treaty The belligerent powers were left to settle these details, and they would return to be settled would be the best policy of Europe, a policy in which he thought England could play her traditional part

Mr Disraeli said the object of the resolution was to call on the Government from carrying out their own sympathies which were inconsistent with the treaty obligations of the nation Parliament ought not to sanction the Government in conference without ascertaining what the great powers had agreed upon the subject

After some remarks from Palmerston, in defence of his course and in denunciation of the motion Lord Elgin said he was satisfied with the explanations made by the Government, and would not press his motion

The completion of the Great Eastern was formally celebrated on the 5th, by a banquet on board which was attended by many members of both Houses of Parliament and the most distinguished engineers and scientific men The huge ship rose and paddle were set in motion for the first time and the result was satisfactory in the highest degree, and far beyond expectation

Lord Stanley proposed a toast to the success of the Great Eastern and painted in glowing terms the triumphs her success will accomplish

He also presented a beautiful and finished model of the ship, almost ready for sea

The Paris letter of the London Times says in regard to the treaty alleged to have been arranged between Napoleon and Jaurez, at Vera Cruz that Mexico will from the moment the treaty is signed mutually pass under American influence

It says the result will be advantageous to Mexico and to the world, but the extent to which its rights will be respected or jeopardized is a serious question

Count Persigny the successor of Russia travelling in his private title of Admiral Romanoff, has arrived at Southport

The work is being the building trade of London has assumed formidable dimensions The number of men unemployed range from twenty to thirty thousand Master builders had sought the Government intervention, but the Home Secretary had not see how he could interfere

It is supposed prevailed that the Bank of England would advance the rates of discount on Thursday

Consols closed at 1-2 per cent lower than on Monday Before operating with confidence, speculators apparently wish to see the result of the coming conferences on the Italian question

The Paris correspondent of the London Post says that the result of the Tuscan elections — have taken place with the greatest order and give the majority to men of moderate liberalism, but to opposed to the restoration of the old dynasty

The London Times and several other journals of the morning publish an article on Italian affairs under the title of "The European coup d'" from the pen of Mazzini

Prince Albert visited the Grand Duke Constantine at Revel

The Paris correspondent of the London Star says report that the Emperor had declared for free trade, but it lacks confirmation

France

The Moniteur publishes a long official report of the Admiral Romain, regarding the operations in the Adriatic He shows that a fleet of Austrian vessels arrived before Venice in sight of the mouth of St Mark, prepared to open fire, when peace was proclaimed

The number of troops from Italy, to march through Paris on the 14th is 70,000

The Paris Constitutionnel ascribes the progressed fortification of Antwerp to influence of England of seeing war with France, wishing to keep her clear with an entrenched camp in Belgium

The Opinione of Turin says 50,000 French troops will remain in Italy provisionally, "owing to the dangerous state of some provinces."

Farini was Commissioner at Parma, announcing the municipality of his departure, and left his Secretary charged with sovereign acts of Government, in the name of the people This produced a very bad effect.

Germany.

Relations between Austria and Prussia almost assume the dimensions of a regular rupture, and were regarded as dangerous to the smaller German States, which were already looking towards France for protection

Prussia

The news of the dissolution of the French army of observation on the Rhine, produced a very favorable effect at Berlin, and Prussia would at once countermand concentration of troops on the Rhine.

Prussia is about to send two vessels of war to Japan to open commercial communications

Africa.

The dates are, Coast Castle, July 14, Sierra Leone, 15th Cotton was being collected in the eastern districts of Gold Coast, and a considerable quantity was expected to be shipped to England The natives were being taught its value, and exports were expected to increase.

Liverpool Markets

Breadstuffs very dull and quotations barely maintained The weather has been favorable, though heavy rains have fallen. LATER FROM CALIFORNIA

NEW ORLEANS, Aug 20

The schr Star is below, with Vera Cruz dates of the 14th inst The news is unimportant — Political affairs were unchanged The Star has $100,000 in specie

The steamship Havana is below with San Francisco dates of the 5th inst The steamers John L Stephens and Orizaba had over $2,000,000 in specie and a thousand passengers for New York Business at San Francisco was dull, and prices tending downward Candles were firmer Flour was $9 per bbl The money market was easy

Horace Greeley was made a lion of everywhere he stopped at that 80,000 emigrants were on their way to California by the overland route.

By the steamer Havana we have dates to the 7th inst. The mails and passengers were robbed by the Patriotics The former were cut open six miles from the town of Tehuantepec

Miramon had dissolved his cabinet Marquess had revolted against Miramon, but the Liberals were besieging him at Guadalajara. The Archbishop of Mexico had excommunicated the Liberal party Gen Wall had been defeated in Tamaulipas, losing all his artillery Gen Degollado had assumed the command of the Liberal army He promises to take the capital by October, but wants $8,000,000 and 10,000 men to do it The decree against the church property was being executed The bonds of the matured debt had risen 10 per cent

ST LOUIS Aug 20

The Overland Mail has arrived here with San Francisco dates of the 29th ult Late arrivals at San Francisco had caused some stir in business, but the market closed very dull Nearly a million pounds of the immense surplus of sugar had been exported to Valparaiso and elsewhere during the month Grain was in fair demand for export

The mining news was favorable, but the receipts of dust were light The Walker River and Woolsey Valley mines were attracting much attention, and large numbers had departed for these diggings

Official returns elect Judge Crane to Congress The Nevada Convention was in session At Carson Valley they were forming a provisional government, it being the intention of the people to throw off all allegiance to the Mormon rule — They designed electing a Governor, Judges and all other necessary officers

A party of Californians en route to St. Louis, were attacked near the South Pass on the 15th June by the Crow Indians, and Geo Stephenson of Pittsburg, David Moore of Lancaster, Pa, and C M Hall of Cincinnati, were killed, and Henry Florence of Carlisle, Pa., was made prisoner

The advices from Oregon say that Stout, democrat is elected to Congress by 11 majority

Lieut Mullan was progressing finely with the road from Walla Walla to Salt Lake A large party of Frazer River miners had arrived at the new diggings in North Colville, Oregon They reported that they were making from $8 to $16 a day

The accounts from Frazer River mines are quite favorable, new discoveries of gold had been made north of Fort Alexander Rich quartz had been received at Victoria from Queen Charlotte Island

PHILADELPHIA, 20th

The main building of Geo B Stout & Co's Sewing Machine Manufactory was burned to the ground this morning The fire was the work of an incendiary Insurance $30,000 The engine and a portion of the factory was uninjured By this fire 700 persons are thrown out of employment, but they will at once recommence operations in the new quarters provided for them by the firm

LEAVENWORTH, 20th

No confirmation has recently been received of the Indian battle in the South

WASHINGTON, Aug 20

Mr Wise, editor of the Enquirer, and Mr Ould, editor of the Examiner, eluded the vigilance of our police and left here early this morning to settle a newspaper quarrel by a duel Mr Ould was the challenger The parties returned between 12 and 1 P M, having exchanged two shots, Neither party was injured The matter rests here for the present

NEW YORK, 20th

The City of Manchester for Liverpool and the Fulton for Havre, both sailed to-day at noon — The former took 220 passengers and nearly $700,000 in specie The latter took 67 passengers and upwards of $400,000 in specie.

The whiskey distillery of Sumner Bennett in Jersey City was burned last night. Loss about $20,000 It is rumored that three of the workmen perished in the flames, but not confirmed

MONTREAL, 20th

The steamship Nova Scotian sailed from here at 10 A M., for Liverpool with 80 passengers Wind W, weather clear.

NEW ORLEANS, 20th

The Steamship Empire City sailed from here to-day via Havana taking $775,000 in specie for New York

BOSTON, 20th

Ship Commodore which arrived from Liverpool Thursday with miscellaneous cargo valued at 150,000, was scuttled at Battery Wharf Saturday afternoon to extinguish fire raging in her hold To-day she was pumped out and floated and cargo will be discharged. Damage not known Insurance on the ship in State Street, $50,000

BOSTON, 21st

The upper part of the east wing of the hospital used as a house of reformation for juvenile offenders was destroyed Loss estimated from $10,000 to $20,000 Three boys, Wm Coughlin, Thomas Gordon and J Riley confessed setting the fire by placing combustibles in the ventilator They intended to set it on fire at midnight, but Coughlin who spoiled the match overslept himself. Riley was formerly an inmate of the Reform School, and thinks attempted its burning

Patrick and John Hayes, brothers, were drowned Thursday afternoon in Lynn Bay by the upsetting of a boat in a squall.

NIAGARA FALLS, Aug 20

The Railroad Convention have agreed to reduce the rate to Memphis via Cairo to $1,80 and $1,44, on first and second classes, and $1,55 and $1,49 to points below Memphis.

BALTIMORE, Aug 20

The steamer Baltimore has arrived here with Havana dates of the 18th inst. Sugars are heavy with the exception of Muscovadoes, which were firm at unchanged prices, owing to a small stock. In molasses nothing was doing Freights were more active Exchange on New York had advanced The rates for money were strongest, owing to the excessive lightness in the market.

NEW YORK, 21

Bark Giula at this port reports Aug 7, in lat 29 29, lon 82 08, saw a large black ship on fire and burnt to the water's edge, appeared to be American and cotton laden At the same time saw a ship which was supposed to have taken off the crew steering towards Bermuda

SLATE!
THE Bangor and Piscataquis Slate Company having completed their arrangements for the manufacture of SLATE SLATE, are prepared to receive orders for any dimension which may be required, from a "paper weight" to a "Billiard Table"

The endless variety of uses to which this article may be applied will readily occur to the artizan, and indeed to every observer of the progress of modern improvement in the arts of life

Counters for Shops, Shelves, Hearths, Tables for Printers Blank Boards for Schools, are among the many purposes for which this article will be in demand

The peculiar texture or grain of the stone from the Brownville quarry, being entirely free from those *gnarls*, or *cross grains* which are apt to disfigure almost all other slates, renders the surface of the manufactured article smooth and true, and it is finished, and probably will not be denied, that it is the *best Slate in the known world*

Having recently filled an order for Messrs Wheeler & Lynde, of the Whig and Courier they have kindly permitted their Tables to be examined at their office

The Company can also supply almost any quantity and size of Roofing Slate, and solicit orders in any of the branches of their business. Specimens at their office Apply to O B ABBOTT,

Ayer's Sarsaparilla,

A COMPOUND REMEDY, in which we have labored to produce the most effectual alterative that can be made It is a concentrated extract of Para sarsaparilla, so combined with other substances still greater alterative power as to afford an effective antidote for the diseases sarsaparilla is reputed to cure It is believed that such a remedy is wanted by those who suffer from Strumous complaints and that one which will accomplish their cure must prove of immense service to this large class of our afflicted It does this now How complete it does this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints

SCROFULA AND SCROFULOUS COMPLAINTS ERUPTIONS AND ERUPTIVE DISEASES, ULCERS PIMPLES, BLOTCHES TUMORS SALT RHEUM SCALD HEAD SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE DROPSY NEURALGIA OR TIC DOULOUREUX, DEBILITY DYSPEPSIA OR INDIGESTION, ST VITUS DANCE ROSE OR ST ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD

This compound will be found a great promoter of health, which taken in the spring, to expel the foul humors which fester in the blood at that season of the year By the timely use of them many ranklingdisorders are stopped in the bud Multitudes end by the aid of this remedy spare themselves from the endurance of foul eruptions and alarming sores through which the system will strive to rid itself of corruption if not assisted to do this through the natural channels of the body by an alterative medicine Clogged and the vitiated blood whenever you find its impurities bursting through the skin in pimples eruptions or sores, cleanse it when you find its obstructed and sluggish in the veins cleanse it whenever you find your feelings will tell you when Even when no particular disorder is felt, people enjoy better health, and live longer for cleansing the blood Keep the blood healthy and all is well but with the impurities of the blood let the cure be no lasting health Sooner or later something, must go wrong and the great machinery of life is disordered or overthrown

Sarsaparilla has and deserves much the reputation of accomplishing these ends But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla or any thing else.

During the years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar Most of these have been frauds upon the sick for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat Still we still this compound Sarsaparilla, and intend to supply such a remedy as shall redeem the name from the load of obloquy which rests upon it And we think we have ground for believing it has virtues which are free liable by the or dinary ruption of the diseases it is intended to cure In order to secure their complete eradication from the system the remedy should be judiciously taken according to directions on the bottle

New England Ailments AND THE ONLY REMEDY!!

THE Eastern states included in that section of the Union which is most widely known as "New England," contain a thrifty, industrious intelligent people, who have achieved an uncommon degree of prosperity, which naturally tempts them to seek other constitutions, and a soil of small fertility they have contrived to surpass more favored communities in almost every thing, that can lay claim to solid comfort and happiness Unfortunately, there are exceptionally some rich blessings, and mental cultivation that they neglect the precautions which are essential to bodily health Dyspepsia and physical debility are prevalent among all classes Chilly biliousness is produced by inattention to the digestive organs which are susceptible of derangement Thousands are now paying the penalty of this neglect and suffering daily the most trying ills almost without a hope of relief They have come to believe that their ailments are chronic, and despair of ever being relieved to the end In gratifying exceedingly to announce to the afflicted individual that they may now command a remedy of unfailing potency and virtue, which has never been found to fail in all cases of digestive weakness and debility, however inveterate. Man in all ages has ready to grow impatient in search of the wonderful conqueror of dyspepsia which is known as

DR J HOSTETTER'S

Celebrated Stomach Bitters.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life giving, medicine whose effects upon the system shall be permanent Apparently most eminent Physicians of eminence and profoundly acquainted with the requirements of the human frame commend *Hostetter's Bitters* as the safest and swiftest stimulant to the recuperative energies of the system yet discovered It restores the appetite gives fresh vigor to the digestive organs, sends the blood through the veins with a purity current corrects a tendency to depression of spirits and fits a man for the transaction of business with a cheerful heart and sound mind Unlike other medicines which temporarily stimulate, the BITTERS do not act spasmodically, with a temporary power—the influence of the remedy is lasting If a patient will but give some attention to securing proper exercise, after the relief has been afforded the result has become one of the most permanent The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to past their declining days in physical ease; whereas they are now suffering from extreme weakness and low nervous. To this venerable class of people, *Hostetter's Bitters* may be commended as an invaluable tonic, a deep gratification in assuring *Nursing Mothers*, that they will find the BITTERS the best and safest of restoratives Many fair creatures are sacrificed by physicians as proper to be administered during the period of nursing, and this has obtained an unfavorable preference

Those who desire to purchase this great remedy for dyspepsia and Debility, should remember their precise title, *Hostetter's Celebrated Stomach Bitters* It is put up in quart bottles, with the name, *Dr. Hostetter's Stomach Bitters*, blown on the bottle and also stamped on the cap covering the cork, with the autograph of *Hostetter & Smith* on the label These things are important, on account of the numerous counterfeits now in the market.

☞ Prepared and sold by HOSTETTER & SMITH Pittsburg, Pa., and also sold by all druggists, grocers, and dealers, generally throughout the United States, Canada, South America, and Germany.

Sold, wholesale and retail by B F Bradbury and N S Harlow, Bangor; at retail by R F Kimball, Oldtown; S Libbey, Orono; E B Parker, Bucksport.

SETH W FOWLE & CO—Gentlemen I have taken a few bottles of your Oxygenated Bitters and for years since Having suffered from a severe attack of Dyspepsia which was attended with great headache, in an average of all less than a week I was induced by the unsolicited recommendation of Dr Green to try one bottle and the result was received to discomfiture beyond my expectations

The use of one bottle warranted a further trial to the extent of some three or four with a cure Be sure to read the accompanying directions They are the best and surest relief from the usual dyspeptic symptoms and the r depressing, pain full consequences These Bitters produced an entire change in the whole of my system, and upon the action of the digestive organs I now deem myself cured Many of my friends have also used these Bitters with the most happy results and I have no hesitation in recommending them to other members of my family
